**Professional Diploma in Business Management  
Professional Diploma in Insurance  
Professional Diploma in Java 3-Tier Web Application  
Development and Oracle Database Administration  
Professional Diploma in Management for the  
Catering Industry**

**January 2018**

This accreditation report is issued by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications (HKCAAVQ) in its capacity as the Accreditation Authority as provided for under the Accreditation of Academic and Vocational Qualifications Ordinance (Cap 592) (AAVQO). This report outlines the HKCAAVQ's determination, the validity period of the determination as well as any conditions or restrictions on the determination.

## 1. Introduction

1.1 The Institute of Professional Education And Knowledge (PEAK) of the Vocational Training Council (VTC) was set up as a self-financed higher education institution to provide vocational and professional education and training for in-service working adults. It offers a comprehensive range of continuous professional development programmes and services for the working population in Hong Kong, and for corporations and small and medium-sized enterprises.

1.2 Based on the Service Agreement, HKCAAVQ was commissioned by the Institute of Professional Education And Knowledge (PEAK), Vocational Training Council (職業訓練局高峰進修學院) (the Operator) to conduct a Learning Programme Re-Accreditation exercise to assess and determine whether the following learning programmes continue to achieve the stated objectives and meet the Qualifications Framework (QF) standard at the relevant QF Level:

- (1) Professional Diploma in Business Management;
- (2) Professional Diploma in Insurance;
- (3) Professional Diploma in Java 3-Tier Web Application Development and Oracle Database Administration; and
- (4) Professional Diploma in Management for the Catering Industry

1.3 The accreditation exercise was conducted according to the relevant accreditation guidelines referred to in the Service Agreement and the Terms of Reference stated therein. A site visit took place on 28 to 30 November 2017.

## 2. HKCAAVQ's Accreditation Determination

Having due consideration of the accreditation panel's observations and comments as presented in this Report, HKCAAVQ makes the following accreditation determination:

Approval

<b>Name of Operator(s)</b>	Institute of Professional Education and Knowledge (PEAK), Vocational Training Council 職業訓練局高峰進修學院	
<b>Name of Award Granting Body</b>	Vocational Training Council 職業訓練局	
<b>Title of Learning Programme</b>	Professional Diploma in Business Management 商業管理專業文憑	Professional Diploma in Insurance 保險學專業文憑

<b>Recommendations</b>
<u>Professional Diploma in Insurance</u> 1. The Operator should review the full set of teaching materials under its quality assurance procedures to ensure that they are accurate, up-to-date and clearly presented for the local insurance context.

2. The Operator should use local examples in the assessment questions and provide all possible answers in the marking schemes for markers' consideration.

#### Professional Diploma in Management for the Catering Industry

3. The Operator should update the programme content by including topics on the application of technology so as to help learners achieve the learning outcomes and keep abreast of the latest development of the catering industry.
4. The Operator should review the admission and promotion strategy by strengthening the communications with local catering groups and conducting promotion to practitioners with RPL qualifications at QF Level 3 in order to expand the pool of potential learners.
5. The Operator should give opportunities to learners to learn about different workplace practice such as arranging company/store visits as learning activities in the programme.
6. The Operator should include end-of-module assessment in different modules in order to assess students' integrated attainment of learning outcomes of the modules.

#### Professional Diploma in Java 3-Tier Web Application Development and Oracle Database Administration

7. The Operator should maintain the currency of the programme contents and the relevancy of the industry development by conducting a market survey in the related area. It should also improve the admission strategy of the programme in order to reach out more prospective learners through various kinds of promotion.
8. The Operator should include in the assessment guidelines that students of PDADDA are required to complete all assessment tasks including continuous assessments and end-of-module assessment in order to pass a module.

#### All programmes

9. The Operator should collect stakeholders' feedback on a regular basis in order to evaluate if the programme objectives have been met effectively and help make further improvement on the programme in the review process.

### **3. Programme Details**

The following is the programme information provided by the Operator.

#### **3.1 Programme Objectives**

##### **Professional Diploma in Business Management**

- Provide students an understanding of integrative knowledge and skills in business management for various business contexts;
- Build up students' capacity of resolving business-related problems in various organisations effectively; and

- Prepare students for further education and professional development in the business sector.

#### **Professional Diploma in Insurance**

- Provide students with an understanding of specialist knowledge and skills in the insurance and financial services sector through reflective and innovative approaches;
- Develop students' ability of performing various job duties in a professional manner at both the functional and cross-functional levels; and
- Prepare students for further education and professional development in the insurance and financial services sector.

#### **Professional Diploma in Java 3-Tier Web Application Development and Oracle Database Administration**

- Develop students with the professional knowledge and skills in various specific areas of Java web technology and database administration with practice in the context of web application development environments;
- Equip students with problem-solving and analytical skills for the creation, configuration and maintenance of Java web technology and for the administration of database systems; and
- Provide students with an academic qualification for further education and training as well as better employability in the Information and Communication Technology industry.

#### **Professional Diploma in Management for the Catering Industry**

- Equip catering practitioners with the knowledge of and skills in theory and management practice in the areas such as human resources management, financial management, business management and operation, and customer service;
- Develop catering practitioners' perspectives on contemporary issues in the areas such as human resources management, financial management, business management and operation, and customer service; and
- Prepare catering practitioners for more advanced roles and to pursue their lifelong professional development.

### 3.2 Programme Intended Learning Outcomes

#### **Professional Diploma in Business Management**

On completion of the programme, students will be able to:

- Analyse business issues and suggest feasible solutions with the application of fundamental theories, concepts and practices in the core areas of business management, economics, accounting and marketing;
- Analyse management functions, principles and processes that contribute to the achievement of organisational goals;
- Define, analyse and solve structured and unstructured problems for business development of organisations in a variety of business contexts; and
- Work and collaborate with business professionals and different stakeholders in making business decisions.

#### **Professional Diploma in Insurance**

On completion of the programme, students will be able to:

- Apply a systematic body of knowledge appropriate to manage independent insurance work applications;
- Identify, gather and evaluate information as well as communicate effectively and appropriately in a broad range of professional work activities relating to insurance and financial services;
- Define, analyze and solve structured and unstructured problems in insurance and financial services sector by selecting and using relevant information; and
- Perform duties in compliance with relevant requirements and professional codes of conduct in the insurance and financial services sector.

### **Professional Diploma in Java 3-Tier Web Application Development and Oracle Database Administration**

On completion of the programme, students will be able to:

- Apply appropriate software development tools and techniques to implement a range of solutions to support business operations;
- Access computer software to realise creative and innovative ideas for development and management of web applications;
- Comprehend essential knowledge, skills and techniques in Information and Communication Technology as practitioners in the sector; and
- Manage and monitor database systems by applying appropriate knowledge and skills in elicitation, analysis, design, implementation, testing and documentation.

### **Professional Diploma in Management for the Catering Industry**

On completion of the PDMCI programme, learners will be able to:

- Apply theories, concepts, principles and practices of management in the areas such as human resources management, financial management, business management and operation, and customer service for the operation and development of catering business;
- Analyse and interpret business management information to make business decisions in the catering business operations;
- Perform management and supervisory functions in catering organisations and execution of activities in order to maintain good staff relations; and
- Analyse and evaluate operational managerial problems and contemporary issues in order to formulate feasible solutions.

#### 3.4 Graduation Requirements

##### For all programmes

- To obtain the programme award, students need to pass all core modules and a required number of elective modules, if applicable, within the maximum registration period of 4 years.

#### 3.5 Admission Requirements

##### For all programmes

- Five HKDSE subjects at Level 2, including English and Chinese Languages, with 2 years of relevant full-time working experience; or
- Five HKCEE subjects at Grade E/Level 2, including English\* and Chinese Languages, with 3 years of relevant full-time working experience; or

- Completion of a QF Level 3 programme that is deemed acceptable to the respective PEAK Programme Committee; or
- Relevant Recognition of Prior Learning (RPL) qualification(s) at QF Level 3 or above that is deemed acceptable to the respective PEAK Programme Committee AND a pass in an admission interview; or
- Other relevant verifiable prior learning and/or work experience that is/are deemed appropriate by the respective PEAK Programme Committee AND a pass in an admission interview.

\* Applicants who took HKCEE English Language in 2006 or before should have attained Grade E or above (Syllabus B) / Grade C or above (Syllabus A).

The entry requirements for mature applications are:

- Aged 23 or above with at least 2 years of relevant full-time working experience.

#### **4. Appeal**

- 4.1 If the Operator is aggrieved by the determination made in this accreditation report, then pursuant to Part 3 of the Accreditation of Academic and Vocational Qualifications Ordinance (AAVQO) (Cap 592) the Operator has a right of appeal to the Appeal Board. Any appeal must be lodged within 30 days of the receipt of this accreditation report. Please refer to Cap. 592A (<http://www.legislation.gov.hk/eng/home.htm>) for the appeal rules. Details of the appeal procedure are contained in section 13 of the AAVQO and can be accessed from the QF website at <http://www.hkqf.gov.hk>.

#### **5. Substantial Change**

- 5.1 The accreditation status of the learning programme(s) will lapse upon the expiry of the validity period or HKCAAVQ may withdraw the accreditation status at any time during the validity period if there are substantial changes made to the programme(s) that have not been approved by HKCAAVQ. Please refer to the '*Guidance Notes on Substantial Change to Accreditation Status*' in seeking approval for proposed changes. The Guidance Notes can be downloaded from the HKCAAVQ website.

#### **6. Qualifications Register**

- 6.1 Qualifications accredited by HKCAAVQ are eligible for entry into the Qualifications Register (QR) at <http://www.hkqr.gov.hk> for recognition under the Qualifications Framework (QF). Operators should apply separately to have their quality-assured qualifications entered into the QR.
- 6.2 Only learners who commence the study of the named accredited learning programme during the validity period and who have graduated with the named qualification listed in the QR will be considered to have acquired a qualification recognised under the QF.
